Il Futuro del Ferro Battuto

"Gonzato Design" è una linea di pannelli pre-assemblati che facilita il lavoro dell'artigiano. Infatti gli basterà unire i pannelli tra loro o accoppiarli a del semplice ferro liscio e il lavoro sarà fatto. Avrà così ottenuto un prodotto di Design con un notevole risparmio di tempo e denaro.

Il catalogo Gonzato Design della ditta Ind.i.a. spa raccoglie la più recente produzione di articoli in ferro battuto nata dalla quarantennale esperienza degli Architetti Bruno Gonzato e Stefania Buccio Gonzato. Nel catalogo si respira un'aria di grande novità. Le linee, alcune legate allo stile liberty di inizio '900, sono mediate con una sensibilità contemporanea e con geometrie pulite e definite che razionalizzano lo spazio e lo rendono elegante e preciso.

L'attenta ricerca tipologica che sta alla base di questo catalogo lo qualifica come una delle più moderne e riuscite interpretazioni dell'antica e nobile arte del ferro battuto.

Wrought Iron Future

"Gonzato Design" is a line of pre-assembled panels that makes craftsman's work easier. He only needs to join the panels together or to combine them with a simple straight iron bar and the job will be done in an elegant way. He has in this way obtained a product of Design with a remarkable saving of time and money.

Ind.i.a. spa's "Gonzato Design" catalogue represents the most recent production of wrought iron articles created by the over forty-year experience of Arch. Bruno Gonzato and Arch. Stefania Buccio Gonzato. This catalogue inspires a strong sensation of novelty. The lines, some of which refer to the Art Nouveau style of beginning '900, are interpreted with contemporary sensibility and with clean and defined geometric shapes that rationalize the space, making it elegant and precise. The specific research from which this catalogue originates marks it as one of the most modern and successful interpretations of the old and noble art of wrought iron.
